

Methodology

CFIB's research is based on members' views, which are collected through various controlled-access member surveys using a one-member one-vote system. CFIB produces clear, credible, and compelling analysis that supports the success of independent business in Canada.

CFIB membership has good representation across regions, sectors, and business sizes; hence the survey data offers a reasonable estimate of the distribution of economic activity across Canada.

Your Business Outlook is a monthly CFIB tracking survey that covers small business confidence, expectations, and operating conditions. Findings are typically based on several hundred responses from a stratified random sample of CFIB members. Every last Thursday of the month, results are released in our Business Barometer® reports (Canada, provinces and industries), at cfib.ca/barometer.

Forecasts are based on CFIB data collected via the Your Business Outlook survey, a data set that is available the same month it is collected. By contrast, most other publicly available economic indicators have a delay, sometimes longer than two months.

Job vacancies estimates are also based on the Your Business Outlook survey. The analysis uses data from the CFIB survey, Statistics Canada's Survey of Employment, Payrolls and Hours as well as custom tabulations from Statistics Canada's Labour Force Survey.

For more information on the methodologies used, visit cfib.ca/research.

About CFIB

The Canadian Federation of Independent Business (CFIB) is Canada's largest association of small and medium-sized businesses with 97,000 members across every industry and region. CFIB is dedicated to increasing business owners' chances of success by driving policy change at all levels of government, providing expert advice and tools, and negotiating exclusive savings.
